Paradigm
HIGH EFFICIENCY GEOTHERMAL COMFORT

CUT YOUR HEATING AND COOLING COSTS WITH THE PARADIGM

With a Paradigm geothermal heating and cooling system from ClimateMaster, lowering your heating and cooling costs will be a snap . . . without sacrificing reliability or comfort.

Paradigm savings are made possible by the unit's geothermal technology – a revolutionary technology which uses the clean, renewable energy of the Earth as its primary energy source.

Working with a specially designed underground earth loop system, the Paradigm geothermal unit utilizes the Earth's near constant temperature to exchange energy between the Earth and your home for heating and cooling.

FAST INSTALLATION

An authorized Paradigm dealer can convert your existing gas, electric or propane furnace to a high-efficiency Paradigm geothermal system in one day.

INEXPENSIVE GEOTHERMAL HEATING AND COOLING

Geothermal systems have traditionally been expensive to install. Not the Paradigm. The Paradigm system replaces your current outdoor unit and connects directly to your existing furnace, so installation costs are kept low.

LOW OPERATING COST

With the Paradigm geothermal unit, you can enjoy savings of up to 60% over conventional systems with an investment pay back in as little as three years.

Choose the Paradigm from ClimateMaster – and take advantage of the superior heating and cooling technology of geothermal in your home.

GEOTHERMAL ADVANTAGES

- The most efficient heating and cooling system available
- Reliable components ensure long life
- Flexible location of unit
- Quiet operation in and outside
- Low maintenance
- Highest comfort possible
- Five-year limited warranty and optional ten year warranty
- Cost savings up to 60%
