

GEOTHERMAL HEAT PUMP PROPERTY TAX CREDIT CERTIFICATE

This document certifies the Geothermal Heat Pump property listed below meets or exceeds the requirements of the Energy Star program with regard to efficiency, installation type and installed options. The Residential Energy Efficient Property Credit, located in section 25D of the Internal Revenue Code, provides tax incentives to encourage the use of geothermal heat pumps.

For qualifying geothermal installations completed between Jan. 1, 2009 and Dec. 31, 2016, eligible homeowners can obtain a tax credit of 30% of the total investment with no maximum limit.

Consult the ClimateMaster Residential Tax Incentive Guide or your tax advisor for further information. IRS Form 5695 can be used to file for the federal tax credit.

Please have your installing contractor complete the information below, and keep this certificate for your records. Also keep receipts documenting the total installation price.
