

Geo RANCH

Thursday, May 10, 2012: 9 am - 4 pm

There's no place like GeoRanch for all things geothermal. It's Geo 101, master's degree training and a jamboree all in one! Trenching, drilling, load-sizing and geo equipment expertise are what it's all about.

A day at the farm will deepen your geothermal knowledge substantially. It is a complete day full of food, fun and in-depth learning from industry professionals in each of their fields. The day consist of visiting nine different learning stations throughout the farm:

- Vertical Drilling
- Loop & Manifold Installation
- Pond Loop Application
- Grouting Procedures
- Circulation Pumps
- Pipe Fusion Techniques
- Flushing & Purging
- Radiant Floor Heat
- Sales & Economics
