ClimateMaster Announces a New Distributor

Oklahoma City, OK, February 11, 2015-ClimateMaster has chosen Benoist Brothers Supply as the new distributor for the Midwest and Southern states. Effective immediately, Benoist Brothers will carry the ClimateMaster line.

“ClimateMaster is enthused to add Benoist Brothers Supply to our growing number of distributors - they are a specialty distributor with a high level of knowledge of geothermal systems,” stated John Bailey Jr., Senior Vice President of Sales, ClimateMaster, Inc. Benoist customers now have access to the best geothermal products available and we are excited to bring the unmatched benefits of geothermal to homeowners across their region.”

Benoist Brothers Supply Co. is a full service wholesale distributor of heating and air conditioning products. Benoist Brothers was established in 1928 to serve local contractors. For the past 87 years the company has grown to provide products and services to the region’s communities. Since 1995 Benoist Brothers has been a leading distributor in the geothermal business. Currently the company offers 10 convenient locations in Illinois, Missouri, Indiana, Kentucky and Tennessee. The management team at Benoist Brothers believes that excellence in customer service is their number one goal.

ClimateMaster is the world’s largest and most progressive manufacturer of water source and geothermal heat pumps. We are committed to innovation and dedicated to environmentally clean, economically sound and superbly comfortable home and business environments. Each ClimateMaster product is produced in our state-of-the-art facility utilizing quality management systems that are ISO 9001:2000 certified. We strive for the highest product quality and service after the sale to give you peace of mind.

An LSB Industries, Inc. company (NYSE: LXU), ClimateMaster has been designing and building equipment that enhances environments we live and work in every day for more than 50 years. In addition to geothermal heat pumps, ClimateMaster offers the most extensive product line of water source heat pumps for use in a wide variety of applications.
